INTRODUCTION

The purpose of this revision of the Bylaws is to provide up to date information to the Garden Club Manual by incorporating the changes and additions that have occurred and been approved by the FGCM Board of Directors since the last 1997 revision. It is our desire to be of the most help possible in assisting our members.

The Organizational Study Committee attempted to make this a much used aid for all garden club activity, and we thank all those who so ably assisted.

Please read your revised 2011 Garden Club Manual from cover to cover and use it to seek information and solve problems. Because garden club activity is a growing entity governed completely by the membership, changes may occur regularly, and those changes should be noted in your manual as they appear in *The Garden Forum*, winter and summer editions.
